STEL+SHAY

COLLECTIVE

Welcome! Whether you have been with us for years or this is a new guest experience, we are grateful for the opportunity to enhance your life! We started this business in August of 2019 at our Main Street location. It grew QUICKLY! The opportunity came to purchase our own property in the summer of 2022. By Christmas, we were in total demolition mode and after many sleepless nights, ALL of the emotions and so, so, so much work... Here we are! We've expanded, rebranded and upgraded everything!

We'd like you to know that while we may look like a cohesive business (and we really hope we do), we are each independent business owners. What does this mean for you? To keep your experience as smooth and delightful as possible, we have attached helpful information on each business. This will help you know what services are offered, how to schedule, who to communicate with, hours of business and much more! If you ever find yourself confused, any one of us is here to help, so just ask!

LISA HEAD

Permanent Cosmetic Artist
L'Image Permanent Cosmetics

Hi there, I'm Lisa. I have many hobbies in life and love to keep myself busy but my true passion is my job. I am a permanent cosmetic artist, and since 2005 I have helped women and men feel more confident and carefree about their appearance. Not only is permanent makeup smudge proof, it's elegant and maintenance free.

Since beginning my makeup journey I have learned, and still continue to learn, a lot! Times change and styles change and it's important to me to make sure my clients know that even though the procedure is permanent, I have the know-how to keep them in the "now".

Brows are ever changing and have truly become an addiction to me. My technique allows me to create soft, natural brows with brow strokes, to powder brows, to bolder more prominent brows to simply just brow strokes. Micro needling is truly an art and reading my clients and their expectations adds a whole new level of art to my procedures.

Looking and feeling confident has never been so easy, and you deserve it.

To schedule an appointment with Lisa, call or text [\(507\) 272-1037](tel:5072721037).

SERVICES

Permanent Eyeliner- \$400

From a soft, natural-looking enhancement to a more defined line, the choice is yours! Permanent eyeliner can be applied in many styles and colors. Whatever look you choose, you will wake up, shower, exercise, work, swim and go to bed always looking your best. One look that is very popular is a subtle, natural look which mimics the eyelashes giving the appearance of thicker, darker lashes accomplished through the implantation of pigments in the lash line. A softer natural liner of a bolder defined liner can be achieved by additional shadowing of color.

Ophthalmologists frequently recommend permanent makeup procedures for those who are allergic to conventional makeup and for anyone wearing contact lenses.

I have been committed exclusively to permanent cosmetics and enhancing faces since 2005 providing a controlled sterile environment to perform my procedures.

Permanent Eyebrows- \$400

Eyebrows are so personal to each individual and that is taken into consideration with each and every one of my clients. The world of eyebrows is so vast and knowing they are a permanent feature on your beautiful face can be very intimidating. I am here to help! I am conservative when it comes to brows and want you to feel very comfortable and confident when leaving my salon. Together we work to design and create the perfect brow for you before starting any planting of pigment. What you want is what you get. Brows are created specifically for you whether it be a soft, powdered back drop, a bolder ombre brow with natural looking brow strokes, or simply just brow strokes. I accommodate your expectations.

Enhancements to your brows are made by applying color (pigment) as a powdered background to accentuate your natural brow line and by artistically applying subtle hair strokes to mimic your own natural brows – OR – combine for those with little or no hair in the brow line.

As a professional in the permanent cosmetic and corrective industry, creating permanent eyeliner, eyebrows as well as permanent lip liner and color, is not only an art, but a passion.

LISA'S PRICE LIST

SERVICES CONT.

Permanent Lip Color- \$500 Lip Liner Only- \$400

The permanent makeup procedure for lip color is simply gorgeous.

Lip liner can be applied to give more definition, correct uneven lips, or add fullness to the mouth. The procedure also helps prevent lipstick from bleeding and can minimize the appearance of wrinkles. Or, forget the lipstick altogether and add full lip color!!

Full lip color can be applied in a natural hue or a more vivid color. Again, what you want is what you get.

Touch ups/Enhancements/Refresher/Maintenance

Touch ups or refresher procedures are based on the time in between procedures and the intensity of the touch up. If I am able to obtain the "enhancement" in one treatment, the price will be adjusted to reflect that as opposed to needing additional treatments. This is discussed at the time of scheduling.

All new procedures include a free touch up within 8 – 12 weeks.

When pigments are planted in the dermal layer of your skin, it is impossible to wash it off, therefore considering if permanent (although fading will occur over time) Immediately after implanting the pigments, the color will appear TOO DARK (as it should) and once the healing process is complete, you will have a softer more natural look. A follow up procedure is encouraged to achieve optimal color saturation and desired outcome.

The longevity of permanent cosmetics varies with each person and skin tone. General speaking, a 3 to 5 year lifespan should be expected. The pigments do fade over time due to factors such as exfoliation (natural and chemically induced), sun exposure and medications. Sun Screens and sun avoidance will play a huge role in maintaining your permanent cosmetics. Your cosmetics will also look best when "touched up" or "maintained" as they fade. Again, this will vary with each client, pigment retention and preference.

MAY

Owner of TAAOS Japanese Head Spa

May has over a decade of experience in the healthcare industry and a deep-rooted passion for beauty and wellness. As a certified Hair Loss Clinical Specialist and trained expert in Japanese Head Spa techniques, she is dedicated to helping clients prevent hair loss and promote healthy hair growth. Her specialized treatments serve as a valuable complement to existing scalp and hair care routines.

Hair loss can stem from various factors and often impacts self-confidence. Through targeted scalp treatments, head spa can help address conditions such as eczema, psoriasis, seborrheic dermatitis, and dandruff—many of which can hinder the scalp’s ability to absorb essential topical treatments. By maintaining a clean and balanced scalp, clients can optimize their hair care regimen for stronger, healthier hair.

KATIE MEZNARICH

Owner of Cloudy Skies Design

Hi! I'm Katie. I am so looking forward to welcoming you to the Cloudy Skies Design boutique. My goal is to make shopping here a special experience...just like the other services that are a part of this amazing Collective.

So what is this Cloudy Skies Design all about? I have loved style, accessories, and decorating...since I was a little girl! About four years ago I started making jewelry from a unique medium—designer wallpaper. With years of experience in corporate business and retail sales, I decided to make my own business out of creativity. I had a lot to learn...and am still learning—but my sustainable, different, wearable art is a joy to me and I have seen it bring joy to others.

Fast forward a few years...and I was presented with an opportunity to curate a boutique. I thought: "What a dream! Jewelry, clothes, footwear, home accents—all part of an individual's style. Let's do it!!" My brand is expanding from artisan jewelry to a style boutique. I am looking forward to offering you all the details that elevate your look. Thank you in advance for shopping the boutique before or after the service you booked at the Collective...or, just because you wanted to check it out.

See you soon!
Katie

Shop the boutique: Tuesday 1-6, Wednesday 1-5, Thursday 1-4, Online 24/7. For questions, call (608) 732-5236.

A NOTE TO OUR GUESTS

We are a learning facility for new stylists because education is one of our passions. Our new stylists undergo on the job training both during school and after they graduate. If you are scheduled with one of our fresh stylists, your services will be charged at the appropriate rate for the level of education and skill they have accumulated. Part of the learning process is making mistakes. If there is something you are not satisfied with, we encourage you to bring it to our attention so we can have the opportunity to make adjustments.
